

## Membership Benefits

**Members** receive access to networking opportunities, industry briefings, market intelligence and project updates relating to supplier opportunities on mining and energy projects across Australia.

### MESCA Project Briefings

Project briefings connect project developers to supply chain companies. They inform suppliers of the project scope, procurement standards and the release of upcoming work packages and opportunities on major mining and energy projects across Australia.

### Project Updates & Industry Intelligence

MESCA tracks the development and approval phases of mining, energy and related infrastructure projects across all states and territories. Members are provided with news and project updates which allows them to proactively plan their business development strategies for each project. These come in the form of a monthly Members email update and an instant alert service for “breaking news”.

### Sponsorship Opportunities

Sponsorship opportunities allow members to promote their expertise and branding to large cross sections of the sector via sponsoring MESCA industry events such as project briefings.

### Member Showcase

MESCA members have the opportunity to provide details of their business “success stories”, which may be featured on the MESCAnews website.

### Policy and Advocacy

MESCA provides policy representation on behalf of our members at both the state and federal level on issues facing the supply chain sector across Australia.

### Business, Trade & Export Capability Development

MESCA provides updates on current economic trends which impact business, trade and export supply chain strategies, which assist companies to remain competitive in existing markets and/or enter new markets.

### Governance Opportunities

Senior Managers can raise their profile by nominating to participate in MESCA's governing body the MESCA Industry Reference Group. Membership consists of senior managers (CEOs, GMs, Directors, National Managers) who provide input into MESCA's strategic direction.

### Apprentice Mentoring

MESCA provides a zero-cost mentoring service for 1st & 2nd year apprentices/trainees in manufacturing and related industries, encompassing all related occupations and affiliated roles
